SUMMARY

Quality Assurance Engineer experienced in owning end-to-end QA processes for web and mobile applications, covering manual testing, API testing, test documentation, defect management, release validation, and test automation. Currently serving as the sole QA Engineer at PT Topindo Solusi Komunika Tbk, independently managing software quality throughout the development lifecycle. Experienced in functional, regression, and UAT testing, API validation using Postman, and automated testing using Cypress and Katalon Studio. Strong in identifying product risks, collaborating with developers, and ensuring release readiness.

WORK EXPERIENCE

PT Topindo Solusi Komunika Tbk

Jul 2025 - Present

Quality Assurance Engineer

Independently manage the full QA lifecycle as the only QA Engineer in the company, taking end-to-end ownership of software quality for the company's digital payment ecosystem across web and mobile platforms.

- Managed end-to-end testing activities for web and mobile applications, including test planning, test case execution, defect reporting, and release validation, helping improve software quality and minimize production issues.
 - Collaborated with developers to streamline defect resolution and improve release stability
 - Performed functional, regression, and UAT testing across multiple releases, ensuring product quality and release readiness.
 - Conducted API testing using Postman to validate endpoint functionality and data accuracy.
 - Verified bug fixes and performed regression testing to ensure system stability after changes.
 - Tracked and documented bugs using project management tools, ensuring timely resolution before deployment
 - Proactively proposed feature improvements and technical enhancements to the Development team to optimize product quality and usability.
 - Developed and maintained automated test scripts using Cypress and Katalon Studio to improve testing efficiency and reduce repetitive manual testing.
 - Analyzed business requirements and identified test scenarios to ensure comprehensive test coverage.
-

EDUCATION

Telkom University

Sep 2020 - Sep 2024

Bachelor of Software Engineering, Faculty of Informatics

- Publication "Implementation of Model-View-Controller Architecture on the Qirby Website-Based Admin Using the Laravel Framework"
 - Member of the Student Cadre Division at HMRPL (Software Engineering Student Association) : Actively designed and implemented orientation and training programs for new students.
-
